(This list cancels all others)

PLEASE READ CAREFULLY BEFORE ORDERING--
CURRENT SERIAL RECORDS

PRINT YOUR NAME AND ADDRESS in CAPITAL LETTERS on your order.

TERMS: Cash with order. Do SECURE A MONEY ORDER. We cannot be responsible for lost cash.
Minimum plant, leaf, or bulb order is \$3.00 (plus any additional postage.)

POSTAGE: Orders will be sent postage paid via parcel post, special handling to all Western States including Montana, Colorado, and Arizona.

All others, please add 75¢ to help with the additional postage.

SPECIAL DELIVERY if desired is 55¢ additional.

UNITS OF 50 OR MORE SENT VIA EXPRESS COLLECT.

WE GUARANTEE TO TAKE EVERY PRECAUTION SO THAT YOUR BOX ARRIVES IN THE BEST POSSIBLE CONDITION.

However, sometimes boxes are damaged or crushed en route. If this happens, report to your postmaster immediately and file a damage claim. Proper adjustment will be made by the postal dept. The post office does not recognize any frozen claims; there is no protective insurance against freezing, only damaged and broken claims are honored.

If your box must travel over 1,000 miles, may we tell you how wonderful air mail is to get your tender violets to you in such a fresh condition? Planes are pressurized, so only transfer points need be watched for freezing or bad handling. The cost is only a fraction more, and it is really worth it. Call your post office for the fee per pound and see (*) in the shipping descriptions for the weight of the items you order. Just add this amount to your order for fast and safe arrival of your plants. Or we will ship C.O.D. if you wish.

SPRING SHIPPING: Our violets will be ready for shipping about May 1st. Since we are surrounded by high mountains, we do not attempt any shipping of plants or bulbs before then. A chilled violet is retarded in growth if it does not die, so please be patient and we will send your box just as soon as we can get it to you safely. It may take a few weeks to catch up as we fill orders in rotation.

SEND YOUR ORDER AS SOON AS POSSIBLE. POPULAR VARIETIES ARE SOMETIMES IN SHORT SUPPLY.

FALL SHIPPING: Shipping is resumed when the weather cools in the fall, usually in September. Varieties are again in plentiful supply after the brief respite of summer heat. Shipping ends October 15th for all plant material.

This is what you may order by mail:

LEAVES ARE FRESH CUT from young, vigorously growing plants and are packed in cellophane bags in a separate box by themselves. DO NOT mix leaves with heavier items in one order. MINIMUM fresh cut leaf order is twelve (12) leaves. *Weight: 12 leaves = 1 lb.

Culture: Unwrap box carefully and slit the bags; do not shake out. Soak leaves in 1/2 strength solution of Maxi-Crop for a few hours and then plant in Arndt's rooting medium. Place planting in a clean plastic bag for faster growing.

LEAF SETTINGS: (Grown in our special blended rooting medium)

ROOTED CUTTINGS: will be a well-rooted leaf with plantlets attached, except when stock runs low and we have to send just a well-rooted leaf. They will be packed in cellophane bags in a separate box. DO NOT MIX WITH HEAVIER POTTED ITEMS. Weight: 5 Cuttings = 1 lb.

Culture: Unwrap carefully. Slit the bags. DO NOT shake the cuttings out! Plant immediately in our blended rooting medium. If some plantlets are large enough to take off, set separately in our rooting medium until a good root system has formed. Place planting in a clean plastic bag for faster growing.

ADVANCED CLUMPS: will be a selected group of small plantlets ready to grow individually. They will be shipped in pots like plants and may be ordered along with potted items. We offer these in varieties only where stock permits, so please select from varieties having an asterisk(*) in front. These clumps proved so popular last year when we offered them for the first time, that we were hard pressed to fill all the orders. Since we make these up for each customer, we must ask for at least six weeks time to get them ready - please expect to wait at least 6 weeks for clumps - and order early! Weight: 3 potted clumps = 1 lb.

Culture: Unwrap carefully. Shake clumps out of pots and slowly unbraid them. Place each individual plantlet back in our rooting medium to grow individually into a larger plant with a good root system. (Our medium has enough food for a first flowering.) Place plantlets in a clean plastic bag for faster growth.

PLANTS: are shipped in 2-1/4 inch plastic pots. We offer husky, young plants 2-5 inches high, budded if possible (some varieties are slow to get those first buds!). Plants are grown single crown, but where supply permits, we add a bonus plant to the pot.

Culture: Allow to acclimate for a month before attempting to repot. Place in a plastic bag for quick recovery after shipping; then gradually take it away when plant is growing again.

ARNDT'S NEW INTRODUCTIONS FOR 1963

Our hybridizing program has taken several channels in our attempt to present a well-rounded group of violets to meet every need. From thousands of seedlings we have selected the most unusual and those of the best growing habits for each type. We are grouping these into:

I. LARGE GROWING, SHOW TYPE PLANTS:

LEAVES \$ 1.00

ROOTED CUTTINGS \$ 1.50

PLANTS \$ 2.50

NO CLUMPS

AEROJET: Our contribution to the space age! We proudly present this mammoth deep blue single violet with the precise round petals and stiff quilted plain foliage that indicates a show quality plant. It blooms heavily from the first, and has every possibility for the best performance. Not a supreme.

CORALLINA: Shiny black ruffled leaves with wine underneath and very stiff petioles create an exciting setting for large, deep coral pink single blossoms which are held high on strong stems. As an added surprise, here and there a big splotch of white appears mostly along the heavily fringed edges. It propagates true and does not throw any all white blooms, nor does the white interfere with the clarity of color.

COLORAMA: Bold with intense color is this large, single fringed fantasy-type bloom. Background is rosy wine with a magenta center. Splashes of deep purple and hot pink streaks emphasize the riot of color that plays in the blossoms. Foliage is a crisp, wavy bright green with notched edges.

DIAMOND TIARA: Queen of them all! This lovely double has myriads of large white blossoms all edged with sky blue ruffles. Leaves are very large, round, wavy, and are medium green with light undersides. Plant grows quickly into a 20-inch span.

ENCH ANTE: Exceptionally beautiful foliage on this frilly, deep blue clustered double plant. Leaves are shiny deep green and quilted; edges are evenly ruffled showing wine from underneath without turning over and twisting. They are long without appearing too narrow. Petioles are very stiff.

FRILLY FANCY: Frilly, frilly big downey leaves of light green stand out precisely under myriads of single, almost all green fringed blooms that are just a little white with a tint of lilac at the eye. No plants until Sept.

GAY GAUCHO: Selected by the customers! Long, ruffled quilted leaves that are shiny and stiff, with lots of wine showing. Large double blooms shading from rosy wine to plum. No plants until Sept.

HAPPY BIRTHDAY: to you! Big, big loose soft rose pink blooms with a startling magenta eye like a pink cyclamen. Some of the wide petals of these huge single blooms count five and some six or more. And it never stops blooming. Foliage is plain and symmetrical. No plants until Sept.

KARIMBA: Just what we were hoping to have - a terrific, big deep wine double with green edges on ruffled, shiny quilted foliage that makes an eye-catching plant like an exotic begonia.

MOMENTO: Our daughter, Marcia, selected this as her seedling. It is a large double of very bright delft blue with purple ruffles at the edges. Foliage is downey and deep green, the leaves have almost wine veining which is prominent on the very large round surface. Edges are rippled evenly.

MOONLIGHT POLKA: Clear white glistening single blooms heavily fringed with blue-lavender stand straight up over large, medium green ruffled leaves. Very heavy bloomer.

MOOD INDIGO: Very deep purple fringed double with blooms of good size. The petals lay flat and symmetrical, almost like camellias except for the frilled edges. Leaves are deep, black green and are waved and heavily quilted, but lay flat and straight out.

MRS. O'HALLORAN: Bright green fringed edges lend excitement to this pretty smokey blue double that tips purple against the green. Foliage is the long, ruffled type that fills in well and does not leave that undesirable spacing along the wine petioles.

NIGHTINGALE: Exotic and exciting is our unusual 'bird' for this season. The upper two petals of this huge white single are boldly striped with purple as they stand up like a cockatoo's top-knot. A wide circle of purple accents the bright golden eye. Lower petals are feathered at the edges with purple. Foliage is downey, round and wavy. Makes you want to sing like a nightingale just to own it!

TIMBER TOPPER: A very large 2-1/2 - 3 inch supreme single in bright wine overcast with blue. NO PLANTS

TOWN TOPIC: Topic of this town, too! Everyone wants this very, very bright almost scarlet pink single. Buds unfold bright cherry red and blooms hold this color at the center as they open to a very large size. There are 15-20 blooms per stalk and three stalks under every leaf. Plant has large spooned plain leaves of medium green with wine underneath.

TAMBOURINE: Semi-double, large round blooms actually remind one of a tambourine. Petals have wide wavy edges that are eyelet embroidered evenly with bright royal blue on clear white. They flute and overlay just like the little wheels that go around a tambourine. Foliage is deep green, wavy, and stiff.

ARNDT'S NEW INTRODUCTIONS (Continued)

ORCHIDS TO YOU: Dusty, deep rose pink single blooms are heavily fringed with powder rose. The size and texture of the bloom is breathtaking. Foliage is deep green and quilted with some ruffling at the edges, but leaves grow flat and symmetrical with stiff petioles.

VENETIAN WALTZ: Round and round large white single blooms go wide powder blue stripes like strains of a stately waltz. Blooms are frilly. The foliage is so heavily fluted at the edges with silver from the undersides that it dances, too.

WANDERLUST: Very large, flat pointed and wavy foliage is deep green with distinctly notched edges. Blooms are profuse, single, and are vibrant purple with gold edges.

TYPE II COMPACTS:

This type of plant has become so popular that we have them grouped on several benches in our greenhouses. Plants are medium growing 8-12 inches and most of them finish in 2-1/2 or 3 inch pots. They are ideal for windowsills and planters. This group of plants often bloom the heaviest and flowers seem immense for the size of the plant.

Leaves 85¢	Rooted Cuttings \$ 1.25	Plants \$ 1.75	<u>No Clumps</u>
------------	-------------------------	----------------	------------------

ARDESIA: Pretty frilly white double blooms edged with rosy ruffles make a charming picture as they nosegay over shiny, light green, round curly leaves.

DAPPLED DARLING: Cute as a bug's ear with its freckled foliage as well as freckled blooms. Leaves are plain and pointed with lime green spots on them like measles. Blooms are single wine with white mottles and they have a wide white edge.

DOUBLE HEADER: Yes, an extra dividend of bloom tops this plant with its plain green leaves. Straight up on stiff stems appears a big head of single, ruffled deep blue blooms; so many it seems the whole plant is made of bloom, much like an hour glass.

PLUM PRETTY: A charming companion to Dbl. Header. The same foliage and terrific head of bloom. Each single fluted blossom shades from rosy wine to deep wine at the center and a bluish highlight plays over the wine bloom making it seem to dance.

SCOUT'S HONOR: Vibrant purple single heavily fringed with gold. My cub Scout said, "Mom, that sure looks like our colors - Scout's honor it does!" So Scout's honor, it blooms like a pack meeting, too. Shiny, wavy foliage.

IRISH ZEPHYR: Clear white blooms with wide green frilly edges are wafted over vibrantly green ruffled leaves. Many single blooms glisten to remind one of its parent, Green Froth, but the husky, compact nature of growth shows the merit of further hybridizing.

JACQUELINE: You will love this jewel of a brilliant fringed double pink! Just mounds with clusters of hot pink blooms. Foliage is red-backed and ruffled, too.

BRENDA BERNICE: Very full, round ball of huge double blooms of white mottled with bright delft blue. Plain, neatly tailored foliage. No plants until Sept.

CANDYLAND: Lots of big single blooms striped red-pink and white like peppermint candy. Plain foliage. No plants until Sept.

CINDY CATHERINE: Heavy blooming bright deep blue double with good white edges. Plain neatly tailored foliage. No plants until Sept.

DONNA DENISE: Bright wine full double shaded with plum. Blooms nearly cover this nicely shaped plant with plain foliage. No plants until Sept.

JENIFER JANET: Extra large pearly white semi-double with massive petal formation. Blooms are shaded rose at the center. Leaves are glossy and plain. No plants until Sept.

EDENA GARDENS VARIETIES

Our friends, Pearl and E. H. Thomas, from Edena Gardens in Walnut Creek, Calif., won the Commercial Silver Trophy at the national African Violet convention in San Francisco in 1962. It just couldn't have happened to nicer people! Our congratulations! Mr. Thomas selected the following varieties for us from among his blue and red ribbon winners:

LEAVES 75¢	ROOTED CUTTINGS \$ 1.10	PLANTS \$ 1.50	CLUMPS \$ 1.50 after Sept.1
------------	-------------------------	----------------	-----------------------------

ABANDON: Very intense bright double pink. Nice wavy, quilted foliage.

ARTICA: Huge, clear white double with pointed petals. Supreme foliage.

BETTY LOU: Light olive green, plain foliage. Big double white flowers.

CALIFORNIA QUEEN: Very large full double medium blue. Pointed foliage has silvered, pussy-willow appearance. Makes a lovely, large plant.

CHANDRA: Very outstanding. Ruffled white single blooms have a brilliant rosy wine large center area. Plant is very heavy bloomer, never stopping for any weather or temperature change. Foliage is tailored, pointed, and quilted with veined ribbing.

DELECTABLE: We wanted this one especially. Very large sky blue double. Semi-supreme, foliage.

EXACKTA: A frilly, frilly full double with most interesting color markings. Petals are white and doodled with fine lines of red-violet like feathers. Plain, quilted foliage. A bloomin' fool!

EDENA GARDENS VARIETIES (Continued)

INSOLENCE: Outstanding large single, of a rose watermelon shade with a white eye and some white lightly veined in the bloom. Plain, bronzy green foliage, red backed.

JUNIPERA SERRA: Extremely large single deep plum wine with cupped, wavy petals. Wavy foliage.

MISS UNIVERSE: Very bright, big fringed balls make this an outstanding double pink. Large, wavy quilted foliage of bright light green. Excellent performance.

NEW ERA: Lovely pure white double with a round center of sky blue. Plain, semi-supreme foliage.

PACIFICA: Very large powder blue double with pointed petals. Supreme

PAINTED DOLL: Bronzy, wavy, foliage. Frilly white blooms have a very large center area of fuchsia. A superior 'Stained Glass' for it propagated true and blooms constantly. Single.

SHATTER: Bronzy wavy foliage. Frilled single of carmine and white.

TORCH SONG: Very bright red-pink magenta double of good size. Plain, olive green foliage.

PINK GODDESS: Beautiful, deep green quilted ruffled supreme foliage. Huge, bright pink frilly single blooms edged in green.

VIVACIOUS: Beautiful ruffled deep green quilted foliage, but more limber than Pink Goddess. Intense, red-pink fringed double blooms. Terrific.

ZEST OF THE WEST: Very black green wavy semi-supreme foliage. Huge deep blue single wavy blooms in profusion.

We have other varieties from Pearl Thomas (PT) in the following price groups. They are excellent.

EXTRA CHOICE VARIETIES

LEAVES 75¢ ROOTED CUTTINGS \$ 1.10 PLANTS \$ 1.50 CLUMPS (*) only \$ 1.50

BLACK WAVES: Black, wavy, long and narrow foliage. Cerise double blooms.

BEVY OF ROSES: Clear pink double in clusters. Shiny, dark foliage.

CATHY ANN SUPREME: Huge bright fringed supreme double. No Plants.

CHERRY FROST SUPREME: Huge cerise double blooms. Shiny, supreme foliage. No Plants.

*FABULOUS: Compact, bronze wavy foliage with extra large deep cerise pink double blooms.

FLAMA GRANDE: Deep green foliage with pink and cream flecks. Large, deep double pink.

*FRANCINE(Arndt): Huge intense fringed dbl. pink with cerise center. Pointed, brt. green foliage.

*GREEN DAWN: Very intense deep dbl. pink with heavy green fringed edge. Drk, ruffled foliage.

LADY LUCK: Light pink double fringed with gold. Ruffled light green foliage.

PINK CURLS: Large cluster of light pink dbl. blooms. Large downey, heavily ruched foliage.

PINK FROLIC: Extra large semi-dbl. bright pink fringed blooms. Wavy bronze green foliage.

PINK POODLE: Center tufted. Dark pink ruffled dbl. Wavy, red backed foliage.

PINK TREASURE: Very intense large, supreme pink frilly dbl. Deep green foliage. No Plants.

SOUTHERNAIRE: Magenta red semi-dbl. Almost black girl foliage.

SHANGRI-LA ANGEL WINGS: Bright pink dbl. blooms that stand upright. Dark ruffled foliage.

SHANGRI-LA ANGEL SONG: Bright pink dbl. Very long, narrow fluted foliage.

SHANGRI-LA CUPID'S DART: Medium pink double. Long, narrow green fluted foliage.

BEAU CATCHER(Arndt): Sgl. carmine and white striped fringed bloom. Shiny, ruffled foliage.

BIG BO: Extra large blue and white double. Long, narrow foliage. Plants in Sept.

*BLUE MEDALLION(Arndt): Very intense big, brt. blue dbl. Never out of bloom. Plain foliage.

BLUE PROMISE: Large bright dbl. blue with green fringed edge. Long, narrow foliage.

BOUFFANT ROSE(Beck): Lge. shiny bronze ruffled foliage. Clusters of rose fringed dbl. blooms.

CUP O'CLARET: Very dark green spooned supreme girl foliage. Huge, deep wine sgle. No Plants.

DECCA: Large fluffy mauve double. Shiny, wavy foliage.

*DIPLOMAT(Arndt): Huge dark blue single striped with white. Dark green, tailored foliage.

DIPSY DOODLE: Huge white dip single bloom with wine stripe down each petal.

DIXIE NUGGET: Lots of green in a white double. Heavy, semi-supreme foliage.

DBL. WEDDING RING(Arndt): Huge white dbl. with wide blue border on each petal. Plain foliage.

EVENING PRAYER(Arndt): Large, smokey blue single with a wide white fringe. Ruffled foliage.

FIREBALL(Ulery): Huge, bright magenta red double. Plain foliage.

GOVERNOR OF OREGON: Huge very dark velvet purple fringed single. Supreme. No Plants.

*JADE PRINCESS(Arndt): Huge white and blue star dbl. tipped green. Large, green pointed foliage.

*LADY IN WHITE(Arndt): Huge, flat single fringed white. Semi-supreme.

*LUCIA BRIDE(Arndt): Very clear white single ruffled bloom. Shiny, green ruffled foliage.

MARSHA(Arndt) Cupped bright purple single with green fringed edge. Black, wavy foliage.

MICHAEL O'SHEA: Still too good to drop. Huge deep wine single/gold edge. Heavy bloomer.

MISS RAINDROP(Arndt): Small growing, bronze cut foliage. Cupped single silver frill/purple streaks and splashes.

MYSTERY(Arndt): Very black, shiny foliage. The darkest blue double possible.

PACK O' BLOOM: Masses of double red blooms. Dark, tailored foliage.

PAPER PARASOL: Cream streaked girl foliage. Huge single white striped with wine. No Plants.

ROYAL ORBIT: Large red-purple double. Shiny, round 'berry' type foliage. Different.

SEVEN WINDS: Full blue double. Polished like patent leather leaves.

SHAUNEEN(Arndt): Deep green ruffled supreme foliage. Big, bright pink single with green edge.

*SHARITTA: Very fringed peach single with apricot center. Bronze, wavy foliage.

*SHELLEY: Shaded blush to carmine single with green edge. Shiny green ruffled foliage.

SILVER CREST: White dbl. with a purple edge. Foliage notched and edged with cream. Unusual.

SINGAPORE SLING(Arndt): Foliage mottled cream, pink, chartreuse, green. Supreme. Sgl. wine.

SINGING SANDS(Arndt): Very large silvery lilac dbl. marked with purple. Shiny, bronze foliage.

EXTRA CHOICE VARIETIES* (Continued)

SNOWBOUND PRINCE: Huge, huge single wine. Supreme, cream and green foliage.
 *SPANISH SENORITA: Very black shiny ruffled foliage. Dark plum fringed dbl.
 STORY TELLER(Arndt): Large, flat serrated foliage. Huge deep blue striped with white single.
 TEXAS TRICOLOR: Dark red dbl. with gold edge. Very dark, wavy foliage.
 WAR ADMIRAL: Huge bright plum single. Dark supreme foliage. No Plants.
 WINGS OF EDEN: Large clusters of huge white blooms edged with purple. Supreme. No Plants.
 WONDERMENT(Arndt): Shiny, round ruffled foliage. Single frilly deep blue bloom. Very pretty.
 WOODY WOODPECKER(Arndt): Unusual long shaped blooms like a bird. Wine/gold edge. Single.

MINIATURES

Miniature African Violets are the tiny growing plants that do not exceed six inches in diameter at maturity. Some are very small with mature leaves only 1/2 inch across. They grow slowly and do not produce a large root system, so that they stay in 2 inch pots all their lives. They seem to bloom best on window sills in natural light; and are most attractive in tea cups on glass shelves in smaller windows. Culture is the same as for regular violets, except the necessity of small pots, as they bloom best when root bound. We offer a carefully selected group, chosen for superior blooming ability and normal habit of staying little.

NEW MINIATURES: LEAVES \$1.00 ROOTED CUTTINGS \$2.00 No Clumps PLANTS (Single Crown) \$3.00

BABY ROSES: Masses of dbl. blossoms the very shading of Cecil Brunner roses; blush pink gradually deepening to coral at the center. Tiny, plain leaves of light, chartreuse green. Sorry, no plants this year.

CHEERIO: Large, very intense watermelon (red pink) dbl. blooms are held high above nicely rounded girl foliage.

LEPRECHAUN: Tiny, notched and ruffled leaves with a lighter green base. Flowers held high are almost all green, except for a small circle of deep wine at the eye. The single flowers shade through lime green to a wide circle of true green around the petal edges.

JAM FACE: Very dark, bright wine red single fringed blooms. Tiny, reverse cupped leaves are notched at the edges. This plant makes a very small root system.

MISCHIEF: High, light blue bells nod above round, girl foliage. Each tiny bell is accented with 3 bold, white wedges of white out from the eye, while rays of deeper blue "feather" around them. Each bell is exactly alike, and it propagates absolutely true. We consider this a new, dominant gene, as every seedling from this cross has the same markings; we chose the best one for you. Bells are single, of course. No plants.

WILD VIOLET: Here in the Oregon woods we have native woods violets of deep blue that carpet the hillsides in May. This new miniature is a single, very deep purple and literally covers the plant with blooms of the same shape as our wild violets. A full nosegay of many blooms fills in the center over flat, plain leaves.

POPULAR MINIATURES: LEAVES 65¢ ROOTED CUTTINGS 85¢ No Clumps PLANTS \$ 1.25

BLUSHING BRIDE: Dbl. white with rose center. Girl foliage.

CANDY: Dbl. light blue with heavy white edges. Flat, notched foliage.

CONCHITA: Flat, round, slightly scalloped bronze foliage. Single peach pink cupped blooms accented at the edges and eye with bronzed apricot.

CUDDLE TOY: Large, single wine dappled with white. Notched, girl foliage.

DAWN(PT): Many little dbl. balls of light blue and white. Symmetrical, girl foliage.

DIXIE BELLE: Very large, single wine blooms tipped plum. Flat, girl foliage.

DOLL BABY: Very bright, coral pink dbl. blooms. Tiny, flat semi-scalloped foliage. Sells fast.

DUBONNET: Deep, plum wine single. Very tiny, plain leaves.

FLAMINGO GIRL: Very large, bright pink blooms. Flat, round foliage. No plants.

GLENDORA: Dbl. dark blue with wide white edges. Girl foliage.

GOETZEANA: Species has not bloomed. Very tiny, pointed fuzzy leaves.

KITTEN: Huge single white blooms edged in light blue. Upper petals cup forward and dip.

LAMBKIN: Light, silvery lavender with chalk white edged single bloom. Shiny foliage.

LAVENDER PINK GIRL: Very large full dbl. bright pink blooms with a rosy sheen. Girl foliage.

LIMEADE: Dbl. purple with chartreuse foliage. No plants.

LITTLE MO: Huge deep wine single with a wide green edge. Flat, notched foliage.

LULLABY: Single blooms of white and light blue blended. Profuse. Shiny, notched foliage.

NURSERY RHYME: Large, single rose blooms watermarked with rosy wine. Pretty.

PITTER PATT: Lots of silver orchid frilly blooms. Tiny, wavy foliage. We love it!

POWDER ROSE GIRL: Pretty rose blooms tipped green. Single. Very popular.

RUFFLED BEAUTY: Deep, deep wine cupped blooms on most unusual cut and 'bustled' foliage.

SALLY ANN: Bright coral shaded pink dbl. Girl foliage.

SHUMENSIS: (Specie) Heavy blooming white single with blue eye. Tiny leaves are hairy.

SIAMESE: Double wine. Unusual veined foliage.

SLEEPY TIME: Deep rose single, ruffled sweet pea bloom. Cut and notched foliage.

SLICK CHIC: (Shangle). Very pretty notched drk green and chartreuse foliage. Sgl. light blue.

SNOW BUNNY: Stiff, tall double balls open chartreuse to white. This is a 'must'.

SUNBONNET BABE: Pretty single wine with a white edge. Pointed, plain foliage.

TEARDROPS(Bud's): Bright coral pink single to double blooms. Tiny, pointed foliage.

TEENABEE: Tiny wine dbl. blooms in clusters. Very flat, round girl foliage.

TIC,TAC,TOE(Lyons): Interchanges. Pink, blue, or mottled single. Shiny girl foliage.
 VIOLA'S GIFT: Very large single white streaked with deep wine. Girl foliage.
 WITCHING HOUR: Dark blue single blooms are 'rayed' symmetrically from the eye with deep purple;
 each bloom exactly the same. Something different. Girl foliage.

SELECTED POPULAR VARIETIES

The following varieties have been carefully selected for excellent growing habits and free blooming ability. Many appear on the "100 best" list, and many more are the latest from leading hybridizers, where we have been able to buy enough for quantity propagating. We carry about 2,000 varieties in our cutting beds, and if a variety previously listed in this group is not on this list, it may be we still have it in stock. List the one you want, but also list a substitute from this list. If we still have it in stock, we will send it to you. We are sorry, but we do not have the time for correspondence about varieties, so just make up your order and we will do the best we can to please you.

PRICES INCLUDE POSTAGE TO WESTERN STATES. ALL VARIETIES ARE SUBJECT TO PRIOR SALE.
 (List substitutions as we reserve the right to substitute if necessary.)

GESNERIAS (Kissing Cousins)

AFSCHANTHUS:

A. Lobbian (Lipstick Vine): From a cluster of chocolate calyxes (tubular) emerge scarlet trumpet. A perfect basket plant. \$1.25 per plant. Fresh cutting 50¢.

A. MARMORATA (Zebina): Slender, laurel-like leaves are striped with chocolate. Blooms are green and brown stripes, and are produced in pairs at the axis of the leaves. (Java.) \$1.25 per plant. Fresh cutting 50¢

A. PUCH RUM: va. Stam: leaves are smooth and broad. The flowers that emerge from green calyxes are scarlet with yellow throats. Very rare; excellent basket plant. Plants: \$2.00. Fresh cuttings \$1.00.

A. HOSSENSIANA: Thick, waxy foliage; trailing on woody stems. Long, tubular upright flowers are tiger striped with black. Very rare. (Siam). Plants \$2.50.

A. SEEDLING: (Lobbiana x Marmorata): Please designate which type foliage desired; we have the plain of Lobbiana and the striped of Marmorata. Unflowered. Plants \$1.00.

COLUMNEAS: Plants: \$1.25 Fresh cuttings: 65¢

C. GLORIOSA: Trailing plant with small, green hairy leaves in pairs. Flowers about 3 inches long of scarlet with red and yellow spotted throats. Long strands hang straight down and are most exotic and colorful with rows of blossoms open all at once.

C. GLORIOSA PURPUREA: Burgundy foliage with growing habit like Gloriosa. Beautiful.

C. CRASSIFOLIA: Long, shiny, pointed narrow leaves on woody stems; semi-upright. Flowers are blood red and grow in pairs at the axis of the leaves. Free blooming.

C. LINEARIS: Leaves are more slender and needlelike than Crassifolia. Plant branches more and is semi-upright. Flowers are a lovely rose pink in strong light.

C. MICROPHYLLA: Tiny fern-like leaves in pairs. They have short, red velvet hairs that glow in the sun. Miniature one-inch blooms like Gloriosa in red and yellow.

C. MAGNIFICA: Bushy, robust basket plant. Leaves are pointed and long and deep veins the length of the leaf. Leaves are medium green with rust undersides that glow in the sun. Flowers are long and are mottled rust red and yellow. Profuse blooming.

REICHSSTEINERIA CARDINALIS:

Plants grow upright from an oddly shaped tuber which persists in sitting on top of the soil. Several shoots usually grow from it, making a full plant which is very showy. Leaves are soft green and downy. Flowers are about 3-1/2 - 4 inches long, tubular, bright scarlet and are produced in circular clusters. Everblooming. Plants \$2.50.

NUMMULARIA HYPOCERATA: (Boat Plant)

Tiny, roundish hairy leaves on full trailing plant. Has cutest pouch flowers like calceolarias in red and yellow. Winter blooming. Rests in August.

PLANTS: \$1.75. Fresh cuttings: \$1.00.

SMITHIANTHUS: (Velvet hairs on leaves. Blooms in racemes like fox gloves.) Bulbs are available for planting in June and July only. 40¢ each. 3 for \$1.15.

Plants are available in Fall only. \$1.25 each. 3 for \$3.50.

S. CINNABARINA: Wine leaves with a red velvet effect. Flowers orange spotted.

SMITHIANTHUS (continued)

- S. EXONIENSIS: Leaves patterned wine and green. Pinkish orange flowers.
S. TANGERINE: Mottled wine and green foliage. Flowers red outside; yellow throat.
S. PINKY: Purple hairs on leaves. Flowers cream accented with rose.
S. WINTER SUNSET: Mottled green leaves w/wine hairs. Tall umbels shaded cerise w/yellow throats.
S. YELLOW KING: Light yellow flowers tipped with a splotch of scarlet.
S. MIXED HYBRIDS: Good mixture of F1 crosses.

KOHLERIAS:

Kohlerias have larger flower tubes than Smithianthus, and they are produced in clusters of 2-6 in the axis of each leaf, blooming continuously as the plant produces each new pair of leaves. They continue to make tubers, growing new plants which start to bloom soon. Old plants are cut off when they grow too tall. A 5" pot gives a lovely show the year around.

Tubers: 60¢ each 4 for \$2.25 PLANTS: \$1.25 each 4 for \$4.50

K. LINDANII: Striped light green and chocolate leaves with silver hairs. Blue trumpets with white throats.

K. ERIANTHUS HYBRID SCARLET: An especially brilliant scarlet velvety bloom about 3 inches long with yellow spots on throat. Leaves dark green with red hairs in margin.

K. ERIANTHUS RUBY HYBRID: Leaves are dark green and fuzzy. Tubes are a beautiful deep ruby red with a few yellow spots at the throat.

GLOXINIAS:

We offer seedling plants from three different strains this year. Plants are unflowered, so they come as mixed colors. We will select variety from the foliage, so they will be different.

G. GERMAN HYBRIDS: A new, choice strain. Very vigorous and not inclined to straggle as some strains do. Plants \$1.00. \$10.00 per dozen.

G. DOUBLE: 75% all double. Plants \$1.00. \$10.00 per dozen.

G. EXTRA LARGE FLOWERING: A choice blend cross pollinated from the leading American strains. Should produce many tri-colors. Plants 75¢. \$7.50 per dozen.

SUPPLIES

Supplies are post paid to Western States. All other please add 10% to help with the extra postage. Insecticides will not spot bloom if used according to directions.

MAXI-CROP: Liquified seaweed. 60 trace elements, 12 plant vitamins. Natural rooting hormone. Builds exceptional blooms. 80¢ per 1/2 pt. \$1.50 per pt. \$2.50 per quart. \$7.95 per gal.

POTTING MIX: Organic. Rich in slow acting as well as immediately available plant foods. Gallon bag \$1.75.

ROOTING MEDIUM: Special blend of rooting materials with organic nutrients. Develops husky plantlets with terrific root systems. Per bag - 85¢ and \$1.50.

SPONGE ROCK: Coarse - for drainage aeration in plastic pots. Medium for mixes. Per bag 75¢ and \$1.35.

SMALL PLASTIC POT LABELS: 20 for 10¢, 100 for 50¢ (include 8¢ postage if ordered separately).

KARASPRAY (Mildex): For powdery mildew. Kills on contact. \$1.00 (4 ounces).

KELTHANE: New for mites. Good kill. Safer than D.D.T. in the house. \$2.25 (8 ounces).

VC-13: For nematodes. Soil treatment. \$3.00 (6 ounces).

FOG SPRAYERS: Excellent for humidifiers. Manufacturer's repair guarantee. \$2.00.

PLASTIC POTS: (Best quality plastic.) Plants do not turn yellow in these pots. Square pots do not tip over.

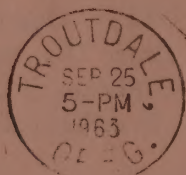

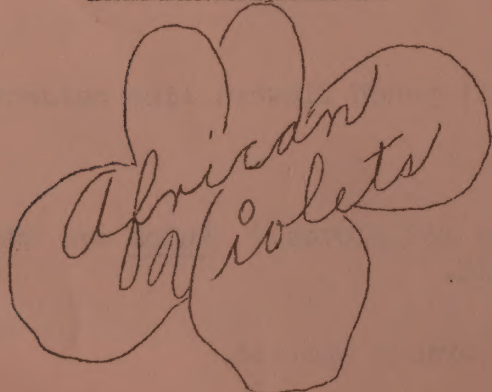

2 inch square - green, pink, black	6-35¢	25-\$1.40
3 inch square - green, gray, white	4-40¢	12-\$1.00
3-1/2 inch square - gray, white	3-60¢	12-\$2.25
4-1/4 inch square - black, green	3-70¢	6-\$1.35
3 inch black saucer	4-50¢	12-\$1.25
4-1/2 inch black saucer	3-60¢	12-\$2.25
